Web Application Report

This report includes important security information about your web application.

Security Report

This report was created by IBM Security AppScan Standard 9.0.3.12, Rules: 17339
Scan started: 5/7/2024 11:22:49 AM

Table of Contents

Introduction

Summary

Issues Sorted by Issue Type

Introduction

This report contains the results of a web application security scan performed by IBM Security AppScan Standard.

Medium severity issues:	1
Low severity issues:	30
Informational severity issues:	59
Total security issues included in the report:	90
Total security issues discovered in the scan:	90

General Information

Scan file name: MCIT_LifeRay

Scan started: 5/7/2024 11:22:49 AM

Test policy: Default

Host	mcit-liferayqc.linkdev.com
Port	443
Operating system:	Unknown
Web server:	Unknown
Application server:	JavaAppServer

Login Settings

Login method:	Recorded login
Concurrent logins:	Enabled
JavaScript execution:	Disabled
In-session detection:	Enabled
In-session pattern:	
Tracked or session ID cookies:	
Tracked or session ID parameters:	
Login sequence:	

Summary

Issue Types 15

TOC

	Issue Type	Number of Issues
M	Missing Secure Attribute in Encrypted Session (SSL) Cookie	1
L	Autocomplete HTML Attribute Not Disabled for Password Field	1
L	Cacheable SSL Page Found	15
L	Check for SRI (Subresource Integrity) support	1
L	Missing or insecure "Content-Security-Policy" header	2
L	Missing or insecure "X-XSS-Protection" header	2
L	Missing or insecure HTTP Strict-Transport-Security Header	2
L	Unsafe third-party link (target="_blank")	7
I	Application Error	35
I	Application Test Script Detected	1
I	Email Address Pattern Found	1
I	Integer Overflow	6
I	Internal IP Disclosure Pattern Found	6
I	SHA-1 cipher suites were detected	1
I	Unsanitized user input reflected in JSON	9

Vulnerable URLs 23

Fix Recommendations 14

TOC

	Remediation Task	Number of Issues
M	Add the 'Secure' attribute to all sensitive cookies	1
L	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"	7
L	Add to each third-party script/link element support to SRI(Subresource Integrity).	1
L	Change server's supported ciphersuites	1
L	Config your server to use the "Content-Security-Policy" header with secure policies	2
L	Config your server to use the "X-XSS-Protection" header with value '1' (enabled)	2
L	Correctly set the "autocomplete" attribute to "off"	1
L	Implement the HTTP Strict-Transport-Security policy with a long "max-age"	2
L	Prevent caching of SSL pages by adding "Cache-Control: no-store" and "Pragma: no-cache" headers to their responses.	15

L	Remove e-mail addresses from the website	1	
L	Remove internal IP addresses from your website	6	
L	Remove test scripts from the server	1	
L	Review possible solutions for hazardous character injection	9	
L	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions	41	

Security Risks 8

TOC

	Risk	Number of Issues	
M	It may be possible to steal user and session information (cookies) that was sent during an encrypted session	1	
L	It may be possible to bypass the web application's authentication mechanism	1	
L	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations	28	
L	In case the third-party server is compromised, the content/behavior of the site will change	1	
L	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.	13	
I	It is possible to gather sensitive debugging information	41	
I	It is possible to download temporary script files, which can expose the application logic and other sensitive information such as usernames and passwords	1	
I	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user	10	

Causes 10

TOC

	Cause	Number of Issues	
M	The web application sends non-secure cookies over SSL	1	
L	Insecure web application programming or configuration	14	
L	Sensitive information might have been cached by your browser	15	
L	There is no support to Subresource Integrity.	1	
L	The rel attribute in the link element is not set to "noopener noreferrer".	7	
I	Proper bounds checking were not performed on incoming parameter values	41	

I	No validation was done in order to make sure that user input matches the data type expected	41	
I	Temporary files were left in production environment	1	
I	The web server or application server are configured in an insecure way	1	
I	Sanitation of hazardous characters was not performed correctly on user input	9	

WASC Threat Classification

TOC

Threat	Number of Issues	
Abuse of Functionality	7	
Cross-site Scripting	9	
Information Leakage	65	
Integer Overflows	6	
Predictable Resource Location	1	
Remote File Inclusion	1	
Server Misconfiguration	1	

Issues Sorted by Issue Type

M Missing Secure Attribute in Encrypted Session (SSL) Cookie 1 TOC

Issue 1 of 1 TOC

Missing Secure Attribute in Encrypted Session (SSL) Cookie	
Severity:	Medium
CVSS Score:	6.4
URL:	https://mcit-liferayqc.linkdev.com/c
Entity:	LiferayJWTToken (Cookie)
Risk:	It may be possible to steal user and session information (cookies) that was sent during an encrypted session
Causes:	The web application sends non-secure cookies over SSL
Fix:	Add the 'Secure' attribute to all sensitive cookies

Reasoning: AppScan found that an encrypted session (SSL) is using a cookie without the "secure" attribute.

Issue 1 of 1

TOC

Autocomplete HTML Attribute Not Disabled for Password Field

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/web/guest/home
Entity:	home (Page)
Risk:	It may be possible to bypass the web application's authentication mechanism
Causes:	Insecure web application programming or configuration
Fix:	Correctly set the "autocomplete" attribute to "off"

Reasoning: AppScan has found that a password field does not enforce the disabling of the autocomplete feature.

Test Requests and Responses:

```

L Cacheable SSL Page Found 15

TOC

Issue 1 of 15

TOC

Cacheable SSL Page Found	
Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/o/js_resolve_modules
Entity:	js_resolve_modules (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations
Causes:	Sensitive information might have been cached by your browser
Fix:	Prevent caching of SSL pages by adding "Cache-Control: no-store" and "Pragma: no-cache" headers to their responses.

Reasoning: The application has responded with a response that indicates the page should be cached, but not ALL cache control headers are set ("Cache-Control: no-store" and either "Pragma: no-cache" or "Cache-Control: no-cache").

Test Requests and Responses:

```
GET /o/js_resolve_modules?modules=frontend-js-spa-web%405.0.44%2Finit HTTP/1.1

TOC

Cacheable SSL Page Found

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-theme/manifest.json
Entity:	manifest.json (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations
Causes:	Sensitive information might have been cached by your browser
Fix:	Prevent caching of SSL pages by adding "Cache-Control: no-store" and "Pragma: no-cache" headers to their responses.

Reasoning: The application has responded with a response that indicates the page should be cached, but not ALL cache control headers are set ("Cache-Control: no-store" and either "Pragma: no-cache" or "Cache-Control: no-cache").

Test Requests and Responses:

```

Cacheable SSL Page Found

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/documents/d/guest/mcit-recruitment-ar
Entity:	mcit-recruitment-ar (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations
Causes:	Sensitive information might have been cached by your browser
Fix:	Prevent caching of SSL pages by adding "Cache-Control: no-store" and "Pragma: no-cache" headers to their responses.

Reasoning: The application has responded with a response that indicates the page should be cached, but not ALL cache control headers are set ("Cache-Control: no-store" and either "Pragma: no-cache" or "Cache-Control: no-cache").

Test Requests and Responses:

```

L Check for SRI (Subresource Integrity) support 1

TOC

Issue 1 of 1

TOC

Check for SRI (Subresource Integrity) support	
Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/web/guest/home
Entity:	home (Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Causes:	There is no support to Subresource Integrity.
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they

didn't compromised

Test Requests and Responses:

```

TOC

Missing or insecure "Content-Security-Policy" header

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/o/js_resolve_modules
Entity:	js_resolve_modules (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	Insecure web application programming or configuration
Fix:	Config your server to use the "Content-Security-Policy" header with secure policies

Reasoning: AppScan detected that the Content-Security-Policy response header is missing or with an insecure policy, which increases exposure to various cross-site injection attacks

Test Requests and Responses:

```

Issue 2 of 2

TOC

Missing or insecure "Content-Security-Policy" header

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-theme/manifest.json
Entity:	manifest.json (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	Insecure web application programming or configuration
Fix:	Config your server to use the "Content-Security-Policy" header with secure policies

Reasoning: AppScan detected that the Content-Security-Policy response header is missing or with an insecure policy, which increases exposure to various cross-site injection attacks

Test Requests and Responses:

```
GET /o/mcit-theme/manifest.json HTTP/1.1

L Missing or insecure HTTP Strict-Transport-Security Header 2 TOC

Issue 1 of 2 TOC

Missing or insecure HTTP Strict-Transport-Security Header	
Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/o/js_resolve_modules
Entity:	js_resolve_modules (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	Insecure web application programming or configuration
Fix:	Implement the HTTP Strict-Transport-Security policy with a long "max-age"

Reasoning: AppScan detected that the HTTP Strict-Transport-Security response header is missing or with insufficient "max-age"

Test Requests and Responses:

```
GET /o/js_resolve_modules?modules=frontend-js-spa-web%405.0.44%2Finit HTTP/1.1

Issue 2 of 2

TOC

Missing or insecure HTTP Strict-Transport-Security Header

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-theme/manifest.json
Entity:	manifest.json (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	Insecure web application programming or configuration
Fix:	Implement the HTTP Strict-Transport-Security policy with a long "max-age"

Reasoning: AppScan detected that the HTTP Strict-Transport-Security response header is missing or with insufficient "max-age"

Test Requests and Responses:

```
GET /o/mcit-theme/manifest.json HTTP/1.1
Sec-Fetch-Site: same-origin
User-Agent: Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko)

L Unsafe third-party link (target="_blank") 7 TOC

Issue 1 of 7 TOC

Unsafe third-party link (target="_blank")

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/home
Entity:	home (Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	The rel attribute in the link element is not set to "noopener noreferrer".
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

Reasoning: The third-party links with target="_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

Test Requests and Responses:

```
GET /home HTTP/1.1

Issue 2 of 7

TOC

Unsafe third-party link (target="_blank")

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/c/portal/login
Entity:	login (Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	The rel attribute in the link element is not set to "noopener noreferrer".
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

Reasoning: The third-party links with target="_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

Test Requests and Responses:

```

Unsafe third-party link (target="_blank")

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/recruitment
Entity:	recruitment (Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	The rel attribute in the link element is not set to "noopener noreferrer".
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

Reasoning: The third-party links with target="_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

Test Requests and Responses:

```

Issue 6 of 7

TOC

Unsafe third-party link (target="_blank")	
Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/web/guest/recruitment-options
Entity:	recruitment-options (Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	The rel attribute in the link element is not set to "noopener noreferrer".
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

Reasoning: The third-party links with target="_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

Test Requests and Responses:

```

Issue 7 of 7

TOC

Unsafe third-party link (target="_blank")

Severity:	Low
CVSS Score:	5.0
URL:	https://mcit-liferayqc.linkdev.com/web/guest/home
Entity:	home (Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Causes:	The rel attribute in the link element is not set to "noopener noreferrer".
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

Reasoning: The third-party links with target="_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

Test Requests and Responses:

```

Issue 1 of 35

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-registration/v1.0/individualRegistration
Entity:	->"gender" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Issue 3 of 35

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-registration/v1.0/individualRegistration
Entity:	->"userType" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"applicationQualifications"[0]->"graduationDate" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Issue 9 of 35

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-common-apis/v1.0/uploadFile
Entity:	->"mimeType" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Issue 11 of 35

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"countryKey"->"name" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"r_applicationType_c_recruitmentApplicationTypeId" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"applicationQualifications"[0]->"average" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"applicationQualifications"[0]->"qualificationFrom"->"key" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

```
POST /o/c/recruitmentapplications/ HTTP/1.1

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"applicationQualifications"[0]->"qualification"->"name" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"acceptance" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"mobile" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Issue 30 of 35

TOC

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"identityType"->"name" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"country" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Application Error

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"city"->"disable" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

I Application Test Script Detected 1 TOC

Issue 1 of 1 TOC

Application Test Script Detected

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/web/
Entity:	test (Page)
Risk:	It is possible to download temporary script files, which can expose the application logic and other sensitive information such as usernames and passwords
Causes:	Temporary files were left in production environment
Fix:	Remove test scripts from the server

Reasoning: AppScan requested a file which is probably not a legitimate part of the application. The response status was 200 OK. This indicates that the test succeeded in retrieving the content of the requested file.

Test Requests and Responses:

Issue 1 of 1

TOC

Email Address Pattern Found

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplicationtypes
Entity:	recruitmentapplicationtypes (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations
Causes:	Insecure web application programming or configuration
Fix:	Remove e-mail addresses from the website

Reasoning: The response contains an e-mail address that may be private.

Test Requests and Responses:

```

I Integer Overflow 6 TOC

Integer Overflow

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"r_applicationType_c_recruitmentApplicationTypeId" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

TOC

Integer Overflow

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"identityNumber" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

Issue 4 of 6

TOC

Integer Overflow

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/c/recruitmentapplications/
Entity:	->"applicationQualifications"[0]->"qualificationFrom"->"name" (Parameter)
Risk:	It is possible to gather sensitive debugging information
Causes:	Proper bounds checking were not performed on incoming parameter values No validation was done in order to make sure that user input matches the data type expected
Fix:	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions

Reasoning: The application has responded with an error message, indicating an undefined state that may expose sensitive information.

Test Requests and Responses:

TOC

Internal IP Disclosure Pattern Found

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/account-type
Entity:	account-type (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations
Causes:	Insecure web application programming or configuration
Fix:	Remove internal IP addresses from your website

Reasoning: AppScan discovered what looks like an internal IP address in the response.

Test Requests and Responses:

```

Issue 4 of 6

TOC

Internal IP Disclosure Pattern Found

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/web/guest/recruitment-options
Entity:	recruitment-options (Page)
Risk:	It is possible to gather sensitive information about the web application such as usernames, passwords, machine name and/or sensitive file locations
Causes:	Insecure web application programming or configuration
Fix:	Remove internal IP addresses from your website

Reasoning: AppScan discovered what looks like an internal IP address in the response.

Test Requests and Responses:

```

TOC

Issue 1 of 1

TOC

SHA-1 cipher suites were detected

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/js_resolve_modules
Entity:	mcit-liferayqc.linkdev.com (Page)
Risk:	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user
Causes:	The web server or application server are configured in an insecure way
Fix:	Change server's supported ciphersuites

Reasoning: AppScan determined that the site uses weak cipher suites by successfully creating SSL connections using each of the weak cipher suites listed here.

Test Requests and Responses:

Verify that the site uses the cryptographically weak cipher suites listed here.

The following weak cipher suites are supported by the server:

Id	Name	SSL Version
51	TLS_DHE_RSA_WITH_AES_128_CBC_SHA	TLS 1.2
57	TLS_DHE_RSA_WITH_AES_256_CBC_SHA	TLS 1.2

49171	TLS_ECDHE_RSA_WITH_AES_128_CBC_SHA	TLS 1.2
49172	TLS_ECDHE_RSA_WITH_AES_256_CBC_SHA	TLS 1.2

TOC

Unsanitized user input reflected in JSON

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-forgot-password/v1.0/forgot-password
Entity:	forgot-password (Global)
Risk:	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user
Causes:	Sanitation of hazardous characters was not performed correctly on user input
Fix:	Review possible solutions for hazardous character injection

Reasoning: The test result seems to indicate a vulnerability because the Global Validation feature found an embedded script in the response, which was probably injected by a previous test.

Test Requests and Responses:

Issue 4 of 9

TOC

Unsanitized user input reflected in JSON

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/js_resolve_modules
Entity:	modules (Global)
Risk:	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user
Causes:	Sanitation of hazardous characters was not performed correctly on user input
Fix:	Review possible solutions for hazardous character injection

Reasoning: The test result seems to indicate a vulnerability because the Global Validation feature found an embedded script in the response, which was probably injected by a previous test.

Test Requests and Responses:

```

Issue 8 of 9

TOC

Unsanitized user input reflected in JSON

Severity:	Informational
CVSS Score:	0.0
URL:	https://mcit-liferayqc.linkdev.com/o/mcit-forgot-password/v1.0/forgot-password
Entity:	->"userType" (Global)
Risk:	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user
Causes:	Sanitation of hazardous characters was not performed correctly on user input
Fix:	Review possible solutions for hazardous character injection

Reasoning: The test result seems to indicate a vulnerability because the Global Validation feature found an embedded script in the response, which was probably injected by a previous test.

Test Requests and Responses:

```
